

	Foundation Stage	Year 1 Objectives	Year 2 Objectives
Number – Number and place value	<p>Recite numbers past 5.</p> <ul style="list-style-type: none"> <li>• Say one number name for each item in order: 1, 2, 3, 4, 5.</li> <li>• Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle').</li> <li>• Fast recognition of up to 3 objects, without having to count them individually ('subitising').</li> <li>• Show 'finger numbers' up to 5.</li> <li>• Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5.</li> <li>• Experiment with their own symbols and marks as well as numerals.</li> </ul> <p>Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5.</p> <ul style="list-style-type: none"> <li>• Experiment with their own symbols and marks as well as numerals.</li> </ul> <p>Compare quantities using language: 'more than', 'fewer than'.</p> <p>Solve real world mathematical problems with numbers up to 5.</p> <p>Count objects, actions and sounds.</p> <ul style="list-style-type: none"> <li>• Count beyond ten.</li> </ul> <p>Subitise.</p> <ul style="list-style-type: none"> <li>• Link the number symbol (numeral) with its cardinal number value.</li> <li>• Link the number symbol (numeral) with its cardinal number value.</li> </ul> <p>Compare numbers.</p> <p>Understand the 'one more than/one less than' relationship between consecutive numbers.</p> <ul style="list-style-type: none"> <li>• Explore the composition of numbers to 10</li> </ul>	<ul style="list-style-type: none"> <li>• count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number</li> <li>• count, read and write numbers to 100 in numerals</li> <li>• given a number, identify one more and one less</li> <li>• identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least</li> <li>• read and write numbers from 1 to 20 in numerals and words</li> <li>• count in multiples of twos, fives and tens</li> <li>• practicing ordering [first, second, third] *</li> <li>• recognise place value in numbers beyond 20 *</li> </ul>	<ul style="list-style-type: none"> <li>• recognise the place value of each digit in a two-digit number (tens, ones)</li> <li>• identify, represent and estimate numbers using different representations, including the number line</li> <li>• compare and order numbers from 0 up to 100; use &lt;, &gt; and = signs</li> <li>• read and write numbers to at least 100 in numerals and in words</li> <li>• use place value and number facts to solve problems</li> <li>• count in steps of 3 from 0, forward and backward</li> <li>• count in steps of 2 and 5 from 0, and in tens from any number, forward and backward</li> </ul>

	<p>Verbally count beyond 20, recognising the pattern of the counting system.</p> <ul style="list-style-type: none"> <li>• Subitise (recognising quantities without counting) up to 5.</li> </ul> <p>Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.</p> <p>Have a deep understanding of numbers to 10, including the composition of each number.</p>		
<p>Number – Addition and subtraction</p>	<p><b>Automatically recall number bonds for numbers 0-10. Subitise.</b></p> <ul style="list-style-type: none"> <li>• <b>Link the number symbol (numeral) with its cardinal number value.</b></li> </ul> <p>Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.</p> <p>Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.</p>	<ul style="list-style-type: none"> <li>• read, write and interpret mathematical statements involving addition (+), subtraction (–) and equals (=) signs</li> <li>• represent and use number bonds and related subtraction facts within 20</li> <li>• solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as <math>7 = \square - 9</math></li> <li>• add and subtract one-digit and two-digit numbers to 20, including zero</li> <li>• realise the effect of adding and subtracting zero in order to establish addition and subtraction as related operations *</li> </ul>	<ul style="list-style-type: none"> <li>• solve problems with addition and subtraction:             <ul style="list-style-type: none"> <li>- using concrete objects and pictorial representations, including those involving numbers, quantities and measures</li> <li>- applying their increasing knowledge of mental methods</li> </ul> </li> <li>• recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100</li> <li>• show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot</li> <li>• recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems</li> <li>• add and subtract numbers using concrete objects, pictorial representations, and mentally, including:             <ul style="list-style-type: none"> <li>- a two-digit number and tens</li> <li>- adding three one-digit numbers</li> </ul> </li> <li>• record addition and subtraction in columns to</li> </ul>

			support place value and prepare for formal written methods with larger numbers *
Number – Multiplication and division		<ul style="list-style-type: none"> <li>• solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher</li> <li>• understand multiplication and division through grouping and sharing small quantities *</li> <li>• make connections between arrays, number patterns and counting in twos, fives and tens *</li> <li>• double numbers and quantities *</li> </ul>	<ul style="list-style-type: none"> <li>• calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (<math>\times</math>), division (<math>\div</math>) and equals (=) signs</li> <li>• show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot</li> <li>• solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts</li> <li>• recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers</li> </ul>
Fractions		<ul style="list-style-type: none"> <li>• recognise, find and name a half as one of two equal parts of an object, shape or quantity</li> <li>• recognise, find and name a quarter as one of four equal parts of an object, shape or quantity</li> <li>• recognise and combine quarters as parts of a whole *</li> <li>• find simple fractions of objects, numbers and quantities*</li> </ul>	<ul style="list-style-type: none"> <li>• recognise, find, name and write fractions <math>\frac{1}{3}</math>, <math>\frac{1}{4}</math>, <math>\frac{2}{4}</math> and <math>\frac{3}{4}</math> of a length, shape, set of objects or quantity</li> <li>• write simple fractions for example, <math>\frac{1}{2}</math> of 6 = 3 and recognise the equivalence of <math>\frac{2}{4}</math> and <math>\frac{1}{2}</math></li> </ul>
Measurement	<p>Make comparisons between objects relating to size, length, weight and capacity.</p> <p>Begin to describe a sequence of events, real or fictional, using words, such as 'first', 'then...'</p> <p>Compare length, weight and capacity.</p>	<ul style="list-style-type: none"> <li>• compare, describe and solve practical problems for lengths and heights [for example, long/short, longer/ shorter, tall/short, double/half]</li> <li>• measure and begin to record lengths and heights</li> <li>• recognise and know the value of different denominations of coins and notes</li> </ul>	<ul style="list-style-type: none"> <li>• tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times</li> <li>• recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value</li> <li>• find different combinations of coins that equal the same amounts of money</li> </ul>

		<ul style="list-style-type: none"> <li>• compare, describe and solve practical problems for mass or weight [for example, heavy/light, heavier than, lighter than]]</li> <li>• measure and begin to record mass/weight</li> <li>• sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]</li> <li>• recognise and use language relating to dates, including days of the week, weeks, months and years</li> <li>• tell the time to the hour and half past the hour and draw the hands on a clock face to show these times</li> <li>• compare, describe and solve practical problems for mass or weight capacity/volume [for example, full/empty, more than, less than, quarter]</li> <li>• measure and begin to record capacity and volume</li> <li>• compare, describe and solve practical problems for time [for example, quicker, slower, earlier, later]</li> <li>• measure and begin to record time (hours, minutes, seconds)</li> <li>• tell the time to the hour and half past the hour and draw the hands on a clock face to show these times</li> </ul>	<ul style="list-style-type: none"> <li>• solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change</li> <li>• compare and sequence intervals of time</li> <li>• tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times</li> <li>• know the number of minutes in an hour and the number of hours in a day</li> <li>• choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels</li> <li>• compare and order lengths, mass, volume/capacity and record the results using &gt;, &lt; and =</li> </ul>
<p>Geometry – Properties of shapes</p>	<p>Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: ‘sides’, ‘corners’, ‘straight’, ‘flat’, ‘round’.</p> <ul style="list-style-type: none"> <li>• Select shapes appropriately: flat surfaces for a building, a triangular pattern for a roof, etc.</li> <li>• Combine shapes to make new ones – an arch, a bigger triangle, etc.</li> </ul> <p>Understand position through words alone – for example, “The bag is under the table,” – with no pointing.</p> <ul style="list-style-type: none"> <li>• Describe a familiar route.</li> <li>• Discuss routes and locations, using words like ‘in front of’ and ‘behind’.</li> </ul>	<ul style="list-style-type: none"> <li>• recognise and name common 2-D shapes, including:             <ul style="list-style-type: none"> <li>– 2-D shapes [for example, rectangles (including squares), circles and triangles]</li> <li>• describe position, directions and movements, including half, quarter and three-quarter turns</li> <li>– 3-D shapes [for example, cuboids (including cubes), pyramids and spheres]</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line</li> <li>• draw lines and shapes using a straight edge *</li> <li>• order and arrange combinations of mathematical objects in patterns and sequences</li> <li>• use mathematical vocabulary to describe position, direction and movement, including movement in a straight line</li> <li>• identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces</li> </ul>

	<p>Talk about and identify the patterns around them. For example, stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs', etc.</p> <ul style="list-style-type: none"> <li>• Extend and create ABAB patterns – stick, leaf, stick, leaf.</li> <li>• Notice and correct an error in a repeating pattern.</li> </ul> <p>Select, rotate and manipulate shapes in order to develop spatial reasoning skills.</p> <p>Compose and decompose shapes so that children can recognise a shape can have other shapes within it, just as numbers can.</p> <p>Draw information from a simple map.</p> <ul style="list-style-type: none"> <li>• Continue, copy and create repeating patterns.</li> </ul>		<ul style="list-style-type: none"> <li>• identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]</li> <li>• compare and sort common 2-D and 3-D shapes and everyday objects</li> <li>• use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise)</li> </ul>
<p>Statistics</p>	<p>Experiment with their own symbols and marks, as well as numerals.</p>		<ul style="list-style-type: none"> <li>• ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity</li> <li>• ask and answer questions about totalling and comparing categorical data</li> </ul>

Three and Four Year olds. Reception. ELG.
